

For over 17 years, the Tomorrow's Leaders Program has partnered with the MENA region's leading American-style universities to equip participants with knowledge and practical skills necessary for effective leadership. By attending world-class universities like the **American University in Cairo**, the **American University of Beirut**, and the **Lebanese American University**, which are rooted in the liberal arts tradition, Tomorrow's Leaders foster their critical thinking and strengthen their ability to find creative solutions to the challenges facing their communities, the MENA region, and the world.

In addition to their notable academic work, Tomorrow's Leaders participate in exciting **internships, civic-engagement activities**, and **enrichment workshops** where they apply their knowledge to real-world settings. By joining the Tomorrow's Leaders Program, participants join a vibrant community that offers a comprehensive support system, including mentorship and personal development initiatives. Undergraduate participants have the opportunity to study abroad in the United States for one semester, immersing themselves in American culture, engaging with local communities and expanding their global outlook.

Upon graduation participants join a network of over 1000 program alumni serving as leaders across the MENA region.
